If you've ever hosted a regatta, you know how important it is to know what to expect: how many competitors, who they are, are they current Class members, what special accommodations will I need to make, and how many burgers and pizzas to buy. It's fun, but it's also the easy way to get grey hair.

Help the organizers of the USSCA Regional and other Championship regattas better plan their events. Review the list of USSCA major regattas below, determine which you believe you can be part of, and register so they know you're coming.

All these events are World Qualifier events, so there's a berth for the 50th Sunfish Worlds at stake in each (some have two berths up for grab). Check your calendars and register today!

Each of these regattas is following strict COVID-19 safety precautions. Please make sure you read them before arriving to sail.

In chronological order:
